Instructions

You are working for an aid organisation and have been sent to Banda Aceh, Indonesia in the aftermath of the Boxing Day tsunami.

You have been put in charge of looking after 100,000 survivors for two weeks.

You have been given a budget of £15 million to spend.

Study the available aid in the table above. Complete the “Decision Sheet” by listing what type of aid you are buying for 100,000 people, how much it will cost and list the aid in order of importance (what aid do you think people will need first?).

Devastation after tsunami
